The International Conference for Training and Organizational Development TOD'26

TOD'26
International Conference for Training and Organizational Development

Dr. Mona Awad is an executive educator, researcher, and organizational development specialist with over 15 years of experience leading professional learning and organizational capability development across the maritime transport, and higher education sectors.

She leads the design and transformation of executive education and professional development programs by integrating competency-based learning, experiential learning, simulation, gamification, case-based learning, digital learning technologies, AI-enabled educational tools.

She currently serves as Head of Administrative Development Programs at the Port Training Institute (PTI), Arab Academy for Science, Technology and Maritime Transport (AASTMT), where she oversees the design and development of executive education programs, professional diplomas, scientific content, training materials, workshops, and capacity-building initiatives in leadership, management, accounting, organizational development, and institutional excellence.

In addition to her role in executive education, Dr. Mona serves as an Analytical Research Specialist at the Maritime Research and Consultation Center (MRCC), providing consultancy services in economic and financial feasibility studies, strategic planning for commercial ports, container terminals, logistics hubs, dry ports, and multimodal transport system.

Dr. Mona has authored and co-authored numerous scientific publications and conference papers presented at leading international forums. Her research interests include maritime economics, logistics, organizational development, digital transformation, sustainability, training effectiveness, and the application of emerging technologies in executive education. She holds a Ph.D. in Accounting from Alexandria University and is committed to bridging research, consultancy, and executive learning to drive organizational excellence and sustainable development.
